

Our Marvellous 7 days in May

A Northeast Spain Birding Tour

Dates: May 5th to May 11th 2018

- *Including a 4-hour pelagic cruise into the Mediterranean!*

The essential itinerary:

May 5th – Barcelona, pelagic cruise, Ebro Delta.

May 6th – Birding the Ebro Delta.

May 7th – Birding en-route to Lleida. Inland wetlands, rivers and drylands.

May 8th – Birding the Monegros steppes.

May 9th – Birding around Lleida before Pre-Pyrenees en-route to the Pyrenees.

May 10th – Birding the high Pyrenees.

May 11th – Return to Barcelona, birding en-route.

Note: We can also arrange half- or one-day guided tours for Tarragona or Barcelona cities at the beginning or end of your stay.

Minimum group 4 persons, maximum 7 persons.

Price per person is **1,195 euros**, all inclusive

Now this should be the part where we produce a list of virtually all the birds you can see, and there are an awful lot of them! However, we prefer to present our own personal "Top 3" of every day, maybe you would choose the same, but maybe not!

If you would like a full list just send us an e-mail and we'll be happy to send you one, better still – why not come and see them for yourself?

“A TRUE PROFESSIONAL”

“EXCELLENT COMPANY”

“WILL NEVER FORGET IT!”

“A GREAT BIRDING ADVENTURE”

Birding In Spain's daily favourites of the “7 days in May” tour

- Day 1

Balearic Shearwater – a rare regional speciality

European Storm Petrel – so difficult to see from land!

Pomarine Skua – only passing through, but we could get lucky

- Day 2

Little Bittern – a cute reedbed gem

Collared Pratincole – chatty, active, a superb flyer, a delight to watch

Slender-billed Gull – a rare gull with a delightful pink flush

- Day 3

Great Spotted Cuckoo – large, rowdy and spectacular!

Little Bustard – a real (comical) showbird

Red-necked Nightjar – hidden by day, revealed at dusk

- Day 4

Black-eared Wheatear – an authentic lady's bird

Black-bellied Sandgrouse – can't have one without the other

Pin-tailed Sandgrouse - ditto

- Day 5

Bonelli's Eagle – the ghost eagle

Egyptian Vulture – Is it really a vulture?

Bee-eater – a colourful popular favourite

- Day 6

Lammergeier – the only bone-eating bird in the world

Black Woodpecker – tall, dark and handsome

Citril Finch – a mountain specialist

- Day 7

We'll have to wait and see!

Ask Steve:

Why this particular tour?

- The itinerary is bird- and scenery-packed, without rushing
- We use quality hotels near the birding action
- May is the best time of year for birding in Spain
- We have been guiding here for more than 20 years
- Pelagic cruises are rare events – make the most of this one!
